

Sentara Bayside Hospital LIVES UNITED

The employees of Sentara Bayside and Sentara Princess Anne showed how they LIVE UNITED – and raised more than \$40,000 in **ONE DAY** for the critical needs facing our community.

On Friday August 6th, Kay Hall and Judy Marlow coordinated an awareness Tailgate lunch for all the staff to kickoff their United Way campaign and to highlight the needs for food, shelter, and clothing in our community.

Wearing their favorite NFL jerseys, staff enjoyed hot dogs, hamburgers and side dishes provided by each department in the hospital in exchange for an item of food for the Foodbank of South Eastern Virginia and a completed United Way Pledge Card.

This is the third year that the Bayside/Princess Anne team has exceeded their fundraising goal in one day and won the coveted “First Place” designation within the Sentara Health System.

Kay and Judy both attribute their great results to the giving nature of their co-workers who routinely also Volunteer and advocate for a variety of important issues in the community including the free clinics, after school programs and scouting, church pantries and homeless shelters.
